Portable Media Device (Without software)

1. Connect and open your portable media device
2. Drag and drop the eAudiobook folder into device

^{*}What are Zip files?

Zip files (.zip) are single files, sometimes called "archives", that contain one or more compressed files. Zip files make it easy to keep related files together & make transporting, e-mailing, downloading and storing data and software faster and more efficient.

Why do people use Zip files?

Zip files compress data & therefore save time, space & make downloading software & transferring e-mail attachments faster.

Borrowbox catalogue is covered in detail in the "Borrowbox User Guide for Tablets" (Aimed at phone & tablet users but still relevant).
